# SQUAD Solid

With CHAT BOARD® SQUAD Solid we have taken the SQUAD collection to the next level of accessibility and effortlessness. Peeling away any hint of excess, the design has been brought back to its essence, only to resurface in a core collection of pared-back pieces with full focus on their key function: providing the ideal starting point for creative expression and interaction.

SQUAD Solid is based 1:1 on the original designs, only reincarnated in clean-cut silhouettes with a strong, minimalist aesthetic approach. Boasting the same qualities and advantages as their counterparts, the three mutually complementing pieces join forces in this collection of flexible, freestanding units, all created to connect and separate as desired.

All SQUAD Solid units are delivered flat packed and easily assembled on site, reducing both shipping costs and environmental impact.
