embracing creative dialogue

SQUAD

Seamlessly shaped in the Scandinavian tradition of form meeting function in perfect unison, every member of the CHAT BOARD® SQUAD offers the ultimate in effortless functionality and uncompromising aesthetics in a coolly contemporary and streamlined design by Swedish space planners par excellence, RUMRUM. The six-piece capsule collection is made up of three freestanding units, two attachable desk front screens and one self-supporting desk divider, all accompanied by their very own storage support team, the SQUAD Collectors.

The design is kept deliberately understated and minimalist. The lightweight, powder coated steel structures serve as elegantly simple, yet multifunctional frames for the writable magnetic glass surfaces of each of the SQUAD units. These are both contrasted and accentuated by perforated steel panels incorporated in the steel structure, boasting a clearly geometrical square pattern design. In SQUAD form equals function, and no feature is without purpose. The Collectors provide easily attachable, essential storage for pens and personal effects while creating an additional vertical pattern that is as individual as the user.

Designed and manufactured in Scandinavia, the SQUAD units are delivered flat packed and easily assembled on site, thus reducing both shipping costs and environmental impact.

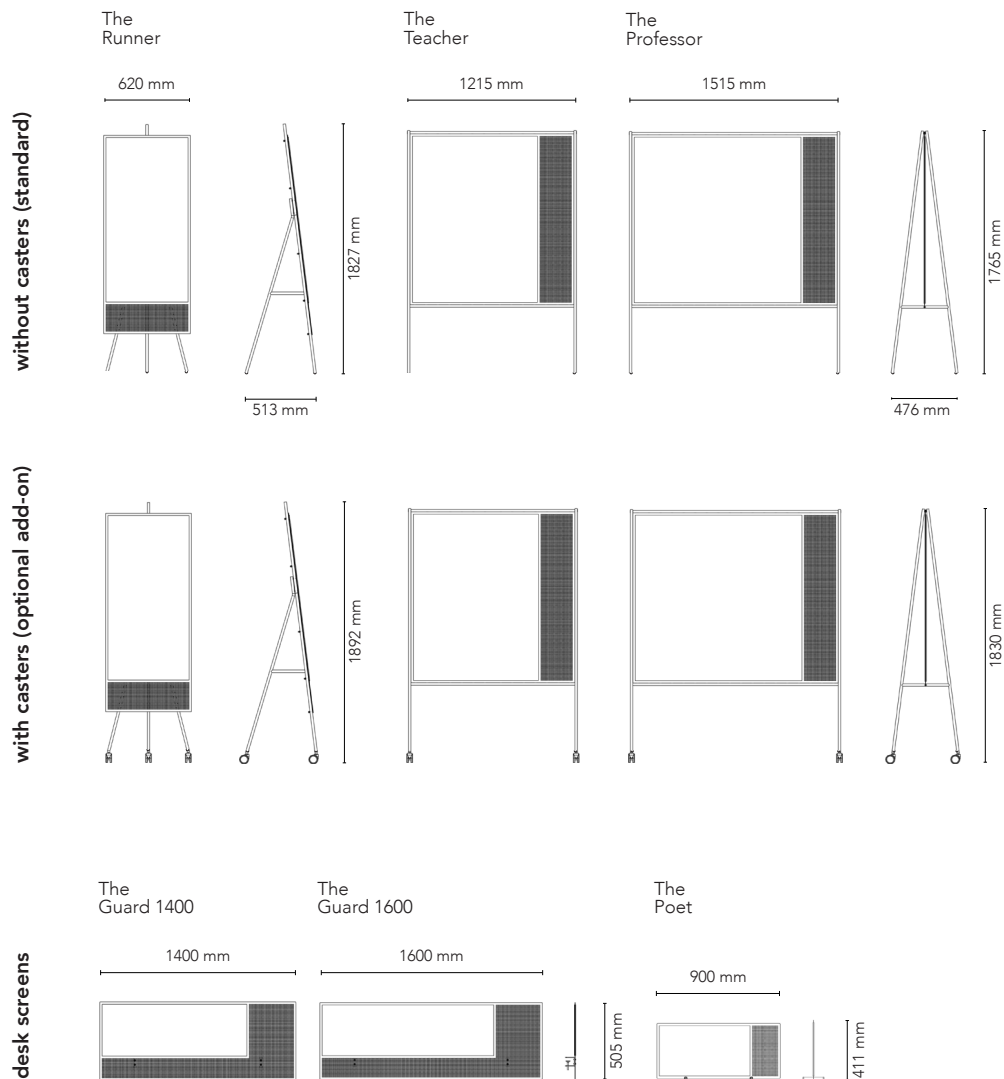

The CHAT BOARD® SQUAD steel frames are powder coated in RAL 9003 Signal White or RAL 9005 Jet Black and are mounted with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. They are available in 25 standard glass colours as well as 5 different BuzziFelt shades (to order on SQUAD Teacher and Professor). Bespoke glass colours (standard RAL or NCS) can be made to order upon request.
