CHAT BOARD®

introduction

The original and first of its kind, the CHAT BOARD® magnetic glass board saw the light of day in 2003 as the joint invention of glass specialist Hans Henning Jensen and his hotelier daughter, Josefine Honoré.

The deceptively simple product was conceived from a wish to elevate the conventional noticeboard to a higher aesthetic level, and to encourage and strengthen visual communication. Not only did it set a new industry standard as the first-ever floating, magnetic glass board with no visible hardware, it came to inspire the use of coloured glass surfaces as a powerful interior design feature.

Since then, both company and collection have grown and diversified significantly, and the portfolio now comprises a wide and continuously expanding range of mutually complementing products, preferred by clients across the globe.

The company remains in family hands, proudly continuing the journey that began more than two decades ago.

Deeply rooted in the Scandinavian design tradition, a CHAT BOARD product embodies an uncompromising commitment to quality in design, materials, and craftsmanship.

We collaborate closely with leading designers on developing beautiful, functional, and innovative designs, all carefully created to enhance and nurture creative dialogue between people in both professional and domestic settings.

Every piece in the collection is hand finished and quality-controlled at our factory just outside Copenhagen, while raw materials are sourced from a few handpicked suppliers, locally and within the EU. Besides giving us complete control of our supply chain, this helps to ensure the unrivalled and consistent quality of our products, while allowing us to keep lead times at a highly competitive level, even for custom made solutions.

GALLERY NEW

CHAT BOARD GALLERY® introduces a minimalist wall-mounted frame system designed for CHAT BOARDs wide collection.

Inspired by the idea of a gallery frame, the system gives the board a more artistic and architectural presence within the space. Defined by its clean lines and modern proportions, the slender frame enhances the floating appearance of the glass board while adding depth and character to the surrounding interior.

Produced in lacquered MDF and available in Sand and White. The system can be mounted both vertically and horizontally and is available in two sizes.

Designed around a monochromatic aesthetic, GALLERY is available in combinations such as Sand/Sand and White/White, creating a calm and cohesive architectural expression. At the same time, the system invites more creative combinations by pairing contrasting board colours, to the 2 excisting frame colours to create a more distinctive visual statement. Additional colour combinations are available on special request.

GALLERY is designed as a flexible system where boards can be updated, replaced or reconfigured over time without changing the full installation.

Please contact our head office with any special requests: info@chat-board.dk

DYNAMIC FLEX WALL

CHAT BOARD® DYNAMIC FLEX WALL offers both an elegant alternative to the signature wall mounted boards, as well as the option of updating previously acquired boards with a beautifully finished frame in warm and touchable oak veneer, instantly and effortlessly changing the look and mood of its surroundings.

Flexible by nature and name alike, DYNAMIC FLEX WALL is fully past-, present- and future-proofed, allowing for continuous updates according to mood and circumstance. Whether it is changing the magnetic board to one of another colour or finish, or simply changing the mounting direction, DYNAMIC FLEX WALL offers unparalleled flexibility and freedom.

DYNAMIC FLEX WALL is available in 5 sizes and is crafted from solid oak wood, finished with a matt PU lacquer. Frames are delivered fully assembled and are easily fitted with the boards of your choice with the same, easy-to-do system applied when mounting boards directly onto a wall surface. As is the case for all wall-mounted boards in the CHAT BOARD collection, DYNAMIC FLEX WALL can be mounted both horizontally and vertically. Wood frames and boards are purchased separately, letting you choose between a ready-packaged solution and the ultimate retrofit.

Glass boards are made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with either smooth C-edges and 4 mm radius corners (Classic and Matt), or with polished V edges and 90° corners (Elements). Choose between a glossy Classic and a velvety Matt finish as well as the palette of 25 (Classic and Matt) or 5 (Elements) standard glass colours. In addition, the glass can also be made to order in bespoke standard RAL or NCS colours, available for glass.

BuzziFelt pin boards are made with 6 mm 100% recycled PET felt which provides a sound-dampening effect, making them the ideal companions for glass boards.

FYI DYNAMIC FLEX WALL may be adapted to fit glass- and ceramic boards from other manufacturers, provided that they have the same measurements and a comparable hanging system.

Please contact our head office with any special requests: info@chat-board.dk

DYNAMIC FLEX FLOOR NEW

The new CHAT BOARD® DYNAMIC FLEX FLOOR offers a flexible way to introduce large writing surfaces into modern workspaces. The floor stand creates an alternative to permanently mounted boards while maintaining the clean aesthetic of the original CHAT BOARD glass whiteboards.

The wooden structure leans against the wall and fits both unframed glass boards and boards mounted in Flex Wall frames. DYNAMIC FLEX FLOOR supports two standard board sizes: 1000 × 2000 mm and 1200 × 2000 mm. Boards are available in standard CHAT BOARD glass colours or made to order in standard NCS or RAL.

The base includes two integrated track. The narrow groove fits unframed glass boards, while the wider groove supports boards mounted in a DYNAMIC FLEX WALL frame. Hanging rails and wall magnets help keep the board securely in place in both configurations.

DYNAMIC FLEX FLOOR are purchased separately.

We advise securing DYNAMIC FLEX FLOOR to the wall through the integrated mounting hole in the frame to ensure optimal safety and stability. Wall screws are not included.

Please contact our head office with any questions: info@chat-board.dk

CHAT BOARD® | 2026

CLASSIC

CHAT BOARD® CLASSIC inspires and facilitates creative dialogue between people and minds. Specially designed to help generate, visualise, organise, and exchange ideas and information, it provides the perfect finishing touch in any office-, meeting- or breakout space.

The design is sleekly elegant and deceptively simple; each element has a clear function, and nothing is superfluous. And the smooth, magnetic glass surface offers the most satisfying writing- and drawing experience you'll ever have. Unrivalled in quality and durability, it comes with the added bonus of being easy to clean, helping to give it its long lifespan and making it the definitive replacement for any whiteboard.

CHAT BOARD® CLASSIC is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. It can be mounted both horizontally and vertically on the wall, is easily switched from one orientation to another, and is available in 13 standard sizes and 25 standard colours. In addition, it can be made to order in bespoke sizes, shapes and standard RAL and NCS glass colours.

Please contact our head office with any special requests: info@chat-board.dk

CLASSIC SURFACING

CHAT BOARD® CLASSIC SURFACING provides the ideal solution for converting larger wall spaces into creative surfaces on a grand scale. Combine up to 5 pieces of the 1000 x 2000 mm Classic board in the colour(s) of your choice to create personalised wall compositions that are an exact match for your specific requirements.

CHAT BOARD® CLASSIC SURFACING is composed of Classic boards made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. As a standard they are mounted vertically on the wall, but they can also be used horizontally if needed. The CLASSIC SURFACING boards each measure 1000 x 2000 mm and they are available in 25 standard colours, which can be combined as desired. In addition, they can be made to order in bespoke standard RAL and NCS glass colours.

MATT

CHAT BOARD® MATT, like its glossier counterpart CLASSIC, is the ideal tool for illustrating, sharing and communicating creative ideas and thoughts, as well as providing any kind of practical information in any imaginable workspace or domestic setting. What really sets it apart, however, is the elegantly matt, yet velvety smooth, surface, which ensures minimal reflection or glare. Equally easy to clean and maintain, the CHAT BOARD® MATT will remain a pleasure to use and look at for years to come.

CHAT BOARD® MATT is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. It can be mounted both horizontally and vertically on the wall, is easily switched from one orientation to another, and is available in 11 standard sizes and 25 standard colours. In addition, it can be made to order in bespoke sizes, shapes and standard RAL and NCS glass colours.

This can be easily cut shorter for vertical mounting if needed.

MATT SURFACING

CHAT BOARD® MATT SURFACING provides the ideal solution for converting larger wall spaces into creative surfaces on a grand scale. Combine up to 5 pieces of the 1000 x 2000 mm MATT board in the colour(s) of your choice to create personalised wall compositions that are an exact match for your specific requirements.

CHAT BOARD® MATT SURFACING is composed of MATT boards made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. As a standard they are mounted vertically on the wall, but they can also be used horizontally if needed. The MATT SURFACING boards each measure 1000 x 2000 mm and they are available in 25 standard colours, which can be combined as desired. In addition, they can be made to order in bespoke standard RAL and NCS glass colours.

Please contact our head office with any special requests: info@chat-board.dk

ELEMENTS

CHAT BOARD® ELEMENTS offers the same advantages and high quality as our CLASSIC magnetic glass boards, in an updated design with a slightly simplified edge- and corner finish. The clean glass surface provides the perfect backdrop for visualising and communicating ideas and information in meeting-, education- or brainstorming sessions.

CHAT BOARD ELEMENTS is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth V edges and 90° corners. It comes in a total of 5 standard colours and 6 standard sizes, which can all be mounted both horizontally and vertically. In addition, Elements can be made to order in bespoke sizes, shapes and standard RAL and NCS glass colours.

Please contact our head office with any special requests: info@chat-board.dk

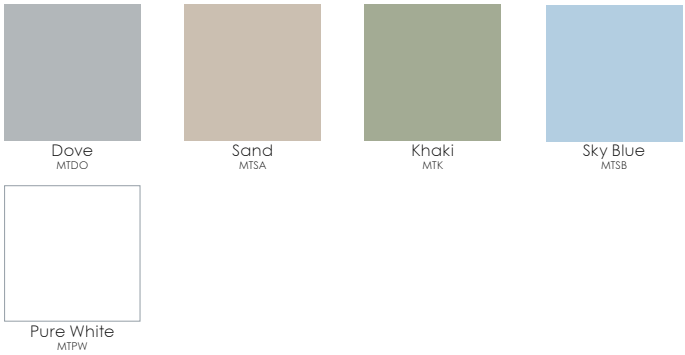

CHAT BOARD® | 2026

CLASSIC CRAFTED

CHAT BOARD® CLASSIC CRAFTED brings a whole new perspective to its much-loved forerunner, CLASSIC. Marrying the soft warmth of oak wood, in a natural or black finish, with our signature streamlined glass surface in one cohesive unit, CLASSIC CRAFTED elegantly elevates the functional to the truly desirable. The four beautifully balanced pieces are all hand finished and tailor made to partner perfectly with other wall-mounted boards in the CHAT BOARD collection, offering endless possibilities to create carefully composed interactive wall surfaces of beauty and utility in equal amounts.

The seamless juxtaposition of contrasting, yet mutually complementing surface textures brings a fresh aesthetic dynamic and definition to the CLASSIC board without taking away from its key function as an indispensable tool for creation and communication.

Complete your CLASSIC CRAFTED composition with the CLASSIC CRAFTED KEEPER, an exquisitely shaped, magnetic accessories holder, mirroring the wood veneer panels of the 'mother' board. Fully flexible and easily attached, it can be placed on both panel and glass and moved around according to mood and circumstances.

CHAT BOARD® CLASSIC CRAFTED is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. The wood panels and Keeper are crafted from oak veneer, treated with a matt PU lacquer in the finish of your choice. All Classic Crafted boards can be mounted both horizontally and vertically (with the panel on either side, top or bottom as desired) and easily changed from one orientation to another. CLASSIC CRAFTED is available in 4 standard sizes and 25 standard glass colours. In addition, they can be made to order in bespoke sizes and standard RAL and NCS glass colours.

Please contact our head office with any special requests: info@chat-board.dk

ORBIT

CHAT BOARD® ORBIT is a playful and slightly less formal interpretation of the magnetic and writable glass board. The strong geometrical shape of the perfect circle offers the ideal starting point for getting truly creative with fun, yet functional wall compositions in professional and domestic settings.

ORBIT is dressed in a choice of fresh CHAT BOARD® colours and, along with three complementary sizes, the collection offers countless ways of creating combinations that add that perfectly personalised dimension to your space.

CHAT BOARD® ORBIT is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth, rounded C-edges. It is available in 3 standard sizes, 7 standard colours, and 2 glass finishes. In addition, it can be made to order in other CHAT BOARD colours or bespoke standard RAL and NCS glass colours.

Please contact our head office with any special requests: info@chat-board.dk

AMBIT

CHAT BOARD® AMBIT shapes a new approach to the wall-mounted magnetic glass board. As a kindred spirit of the much-loved Orbit collection, it features a similarly curvaceous silhouette, this time transformed into a well-proportioned oval by splitting the circle down the middle and uniting it with a central square.

AMBIT evokes that special kind of timeless aesthetic that will instantly add an elegantly understated sense of luxury to its surroundings, making it the perfect final touch to space designs out of the ordinary.

AMBIT is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth, rounded C-edges. It can be mounted both horizontally and vertically. AMBIT is available in 2 standard sizes and 7 standard colours, but it can also be made to order in other CHAT BOARD colours or bespoke standard RAL and NCS glass colours.

BUZZIFELT

CHAT BOARD® BUZZIFELT is our wall-mounted, magnetic, felt-covered pinboard. Made with 6 mm 100% recycled PET felt it is also a sound-dampening panel, making it the ideal companion for other wall-mounted boards in the collection. Combined with CHAT BOARD® magnetic glass boards, these felt-covered panels can help turn any office wall into an ultra-functional, multi-textured and dynamic surface.

CHAT BOARD® BUZZIFELT can be mounted both horizontally and vertically on the wall and is available in 9 standard sizes and 3 standard colours. In addition, it can be made to order in bespoke sizes, shapes and colours.

Please contact our head office with any special requests: info@chat-board.dk

AQSORB®

CHAT BOARD® has partnered up with industry experts AQDECO and created a bespoke collaborative collection of AQSORB® acoustic felt panels in a selection of 9 signature sizes, scaled to complement our bestselling glass boards.

An ideal go-to solution when it comes to both simple and decorative absorption in the workspace, AQSORB® panels are manufactured from a lightweight 100% recyclable PET felt (incl. 75% post-consumer content), which effectively improves room acoustics while helping to ensure a healthier indoor environment.
AQSORB® is tested in accordance with EN ISO 354 with a sound absorption coefficient (NRC) of 0.85.

The AQSORB® x CHAT BOARD collection includes 9 rectangular sizes and 3 NEW circular sizes. Each product in a choice of 3 versatile shades, handpicked to go hand-in-hand with the most popular glass colours. AQsorb® panels are delivered with matching suspension rails, ready for easy wall installation. They can be mounted both horizontally and vertically. Please include your preferred mounting direction on your purchase order, so that we can prepare the panels accordingly. Upon request, panels can also be made to order in bespoke sizes, shapes and colours.

NB AQSORB® panels are not magnetic.

Please contact our head office with any special requests: info@chat-board.dk

MOBILE

freestanding

COACH[NEW]

COACH has touched down on the CHAT BOARD® playing field of fastmoving and flexible freestanding boards. But far from staying on the sidelines, Coach is here to make a mark. Wholly embodying the key principles of joining form and function in clean-cut designs that are as visually appealing as they are dependable, COACH positions itself as a clearly coherent extension of the product collection.

The sleek and slender design is modelled on a recognizable CHAT BOARD silhouette, streamlined into a perfectly balanced monochrome reincarnation - and upgraded with edge-to-edge glass to maximise the writing surface.

Available in four sophisticated shades, COACH combines mutually complementing textures of smooth glass and softly powder coated steel in a mobile unit that simultaneously manages to be both light and reassuringly sturdy.

Units are delivered flat packed and easily assembled on site, thus reducing both shipping costs and environmental impact.

CHAT BOARD COACH steel frames are softly powder coated and fitted with a matching 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. It is available in four colourways, both in two varieties: a standard version with glossy glass and a version with matt glass. For orders of larger quantities, bespoke colours may be made to order upon request.

Please contact our head office with any special requests: info@chat-board.dk

Dimensions

SPRINTER

SPRINTER is the fast-moving and agile addition to the CHAT BOARD® range of freestanding, mobile glass boards. Athletically precise in both shape and performance, it offers a perfectly balanced all-in-one solution, ideal for environments where flexibility is key, be they corporate, creative or educational.

In a pleasingly streamlined design, SPRINTER merges monochrome textures of glass and softly powder coated steel in appealingly earthy shades that lend themselves perfectly to commercial spaces.

SPRINTER was deliberately created in one-size-fits-most dimension that require very limited space while delivering plenty of writing surface. It is based on a light, yet reassuringly stable, tri-pod shaped steel frame, mounted with a magnetic glass board that matches the colour of the structure.

Units are delivered flat packed and easily assembled on site, thus reducing both shipping costs and environmental impact.

CHAT BOARD® SPRINTER steel frames are softly powder coated and fitted with a matching 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. It is available in four colourways, both in two varieties: a standard version with glossy glass and a version with matt glass. For orders of larger quantities, bespoke colours may be made to order upon request.

Please contact our head office with any special requests: info@chat-board.dk

CHAT BOARD® | 2026

SPRINTER

Dimensions

SPRINTER ROUNDED[NEW]

SPRINTER ROUNDED is the softly shaped addition to the CHAT BOARD® SPRINTER family of freestanding, mobile glass boards. Retaining the same agile mobility, compact footprint and generous writing surface as the original SPRINTER, this version introduces elegantly rounded corners for a softer and more refined expression.

In a pleasingly streamlined design, SPRINTER ROUNDED merges monochrome textures of glass and softly powder coated steel in a selection of earthy shades that lend themselves perfectly to commercial, educational and creative environments.

SPRINTER ROUNDED was deliberately created in a one-size-fits-most dimension that requires very limited space while delivering plenty of writing surface. It is based on a light, yet reassuringly stable, tripod-shaped steel frame, mounted with a magnetic glass board that matches the colour of the structure.

Units are delivered flat packed and easily assembled on site, thus reducing both shipping costs and environmental impact.

CHAT BOARD SPRINTER ROUNDED steel frames are softly powder coated and fitted with matching 4 mm tempered safety glass, manufactured in accordance with the highest quality standards. The steel frame features a 40 mm corner radius, while the glass board is finished with a 22.5 mm corner radius, creating a softer and more inviting silhouette. Smooth C-edges complete the refined appearance.

Please contact our head office with any special requests: info@chat-board.dk

SQUAD

Seamlessly shaped in the Scandinavian tradition of form meeting function in perfect unison, every member of the CHAT BOARD® SQUAD offers the ultimate in effortless functionality and uncompromising aesthetics in a coolly contemporary and streamlined design by Swedish space planners par excellence, RUMRUM. The capsule collection is made up of two freestanding units, and one self-supporting desk divider, all accompanied by their very own storage support team, the SQUAD Collectors.
The design is kept deliberately understated and minimalist. The lightweight, powder coated steel structures serve as elegantly simple, yet multifunctional frames for the writable magnetic glass surfaces of each of the SQUAD units. These are both contrasted and accentuated by perforated steel panels incorporated in the steel structure, boasting a clearly geometrical square pattern design. In SQUAD form equals function, and no feature is without purpose. The Collectors provide easily attachable, essential storage for pens and personal effects while creating an additional vertical pattern that is as individual as the user.

Designed and manufactured in Scandinavia, the SQUAD units are delivered flat packed and easily assembled on site, thus reducing both shipping costs and environmental impact.

The CHAT BOARD® SQUAD steel frames are powder coated in Signal White (RAL 9003) or Jet Black (RAL 9005) and are mounted with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. They are available in 25 standard glass colours, while bespoke glass colours (standard RAL or NCS) can be made to order upon request.

Please contact our head office with any special requests: info@chat-board.dk

MOBILE

CHAT BOARD® MOBILE provides the ultimate, multi-purpose solution for the dynamic workplace. With its ingenious design, sturdy construction and ultra-stable, yet easily movable, steel base it is virtually impossible to overturn, meaning there is plenty of room to get carried away in the creative process. Besides boasting one of our signature writable, magnetic glass boards on the front, the MOBILE can also be fitted with a sound-dampening BUZZIFELT pin board, or an additional magnetic glass panel, on the back.

CHAT BOARD MOBILE is made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. It is available in 3 standard sizes and 25 standard glass colours. In addition, it can be made to order in bespoke standard RAL or NCS glass colours, as well as in alternative RAL base colours, besides the standard Signal White (RAL 9003) and Jet Black (RAL 9005).

Please contact our head office with any special requests: info@chat-board.dk

MOVE ACOUSTIC

CHAT BOARD® MOVE ACOUSTIC seamlessly combines the signature magnetic and writable glass board with a class A acoustic panel in two perfectly proportioned movable room dividers, created to shape multi-functional and creative spaces within spaces. Perfectly finished in Remix Screen (90% new wool, worsted, 10% nylon) fabric by Kvadrat and featuring an ingenious, "stackable" cross-base, which allows you to store several units in even the smallest space, MOVE ACOUSTIC offers style as well as substance without compromising on either.
The writable glass surface is the ideal facilitator of free-flowing brainstorming sessions and provides the obvious focal point of shared ideas and information in the corporate conference room, open office space and classroom alike, while its high-performing acoustic panel ensures the balance in visual and auditory exchange.

The movable aluminium base is powder coated in Jet Black (RAL 9005) and fitted with brake casters for added stability. The glass is 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. The wide MOVE ACOUSTIC comes prepared to be mounted with the TV bracket* of your choice (not included), and both sizes are available in 25 standard glass colours and can also be made to order in bespoke standard RAL or NCS glass colours. The standard assortment includes 8 Remix Screen fabric colours by Kvadrat, but requests for alternative colours and varieties can be accommodated on demand.

*NB TV screen should not exceed dim. 50"/ W 1110 x H 600 mm

DYNAMIC

Created by Claus Jakobsen, CHAT BOARD® DYNAMIC bridges the gap between essential workspace fittings and full-fledged furniture in an ingenious framework design, developed to provide flexible, free-flowing, and multifunctional dimensions to professional, educational, and creative spaces.

Timeless and adaptable by nature, DYNAMIC was built to accommodate a working world of a digital age, but it was shaped by a profound appreciation of the fundamentally human need to express itself through analogue means.

The DYNAMIC collection carefully translates two key design themes into a broad selection of self-contained units, each offering different functions that allow it to stand proudly and purposefully on its own, or to partner up with one or more companions to sculpt and define changeable spaces within spaces.

Inviting architects and space planners to create individual and bespoke solutions, DYNAMIC offers a wide range of combinations, spanning across a variety of materials, finish textures and colour options.

DYNAMIC WOOD ACOUSTIC

CHAT BOARD® DYNAMIC WOOD ACOUSTIC combines the noble elegance of carefully composed wood slat surfaces with the soft efficiency of acoustic felt, exquisitely contrasting the smoothness of our signature glass boards.

DYNAMIC WOOD ACOUSTIC offers two base options, Full Coverage and Shelf & Botanic, each presenting a selection of sub-variants. Full Coverage units deliver full-scale, mobile room dividing performance, while Shelf & Botanic units ingeniously combine the agile flexibility of a movable partition wall with either built-in storage or plant boxes.

Materials and facts:

- Frames and slats are manufactured from solid wood, finished with a matt lacquer.
- The acoustic felt, used between slats, and for the LCD screen panel, is a 9 mm 100% recyclable PET felt. The felt is tested in accordance with EN ISO 354 with a sound absorption coefficient (NRC) of 0.75.
- Aluminium parts (feet, shelves and botanic) are powder coated in Signal White (RAL 9003) or Jet Black (RAL 9005).
- DYNAMIC WOOD ACOUSTIC units are made easily mobile by the Ø75 mm soft brake casters, matched to your choice of frame.
- Glass boards are made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. Choose between a glossy CLASSIC and a velvety MATT finish as well as a palette of 25 standard glass colours. In addition, the glass can also be made to order in bespoke standard RAL or NCS colours, available for glass.
- BUZZIFELT pinboards are made with 6 mm 100% recycled PET felt, available in 3 standard colours.

DYNAMIC FABRIC ACOUSTIC

CHAT BOARD® DYNAMIC FABRIC ACOUSTIC is seriously dedicated to sound reduction, integrating class A acoustic panels, beautifully covered in a choice of sustainable fabrics, thus creating the perfect balance between surface textures.

DYNAMIC FABRIC ACOUSTIC offers two base options, Full Coverage and Shelf & Botanic, each presenting a selection of choices. Full Coverage units deliver full-scale, mobile room dividing- and acoustic performance, while Shelf & Botanic units ingeniously combine the agile flexibility of a movable partition wall with either built-in storage or plant boxes.

Materials and facts:

- DYNAMIC FABRIC ACOUSTIC frames are manufactured from solid wood, finished with a matt lacquer.
- The 40 mm acoustic panels are composed of stone wool and covered in a fabric that matches your preferences and desired price category:Hallingdal 65 ^{cat4} by Kvadrat.
- Aluminium parts (feet, shelves and botanic) are powder coated in Jet Black (RAL 9005).
- The DYNAMIC WOOD ACOUSTIC units are made easily mobile by the Ø75 mm soft brake casters, matched to the oak frame.
- Glass boards are made with 4 mm tempered safety glass, in accordance with the highest quality standards, finished with smooth C-edges and 4 mm radius corners. Choose between a glossy CLASSIC and a velvety MATT finish as well as a palette of 25 standard glass colours. In addition, the glass can also be made to order in bespoke standard RAL or NCS colours, available for glass.
- BUZZIFELT pinboards are made with 6 mm 100% recycled PET felt, available in 3 standard colours.

EXTRAS

accessories

DOCK

CHAT BOARD® DOCK combines utility and good looks in one pleasingly petite and flawlessly formed package.
Impeccably neat and tidy by nature, DOCK keeps the everyday essentials in perfect order, housing your CHAT BOARD® pens and cleaner spray in a designated safe space, specially designed for its intended occupants.
Delightfully different from the rest, DOCK comes with a built-in, magnetic eraser that is seamlessly integrated into the softly sophisticated shape of the main unit.

The DOCK storage unit and the accompanying eraser are both magnetic and can be attached to any CHAT BOARD® glass surface. DOCK is manufactured from injection moulded ABS with a soft matt finish, and it is available in three universally matchable colours.

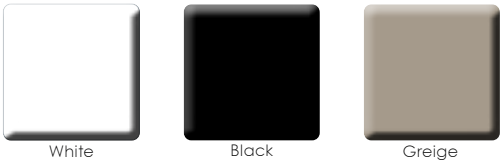

CHAT BOARD® DOCK is designed by Mikkel Bahr, Friis & Moltke Architects.

DISCØ

The CHAT BOARD® DISCØ [di·skow] collection is a fresh and slightly flirtatious take on the quintessential glass board accessories. Sculpted for the human hand, the reassuring warmth of the softly shaped wooden discs puts the pleasure back into erasing and adhering, all with a playful twist.
The conveniently magnetic DISCØ eraser effortlessly carries a CHAT BOARD® marker in its embrace and comes with an elegant entourage of five accompanying DISCØ magnets, mirroring the same, understated, yet undeniably cool design.
Get carried away by the new DISCØ fever and let those groovy moves slide over your CHAT BOARD® product of choice without regret.

DISCØ is crafted from solid oak, and it is available in natural and black, both with a touchable matt lacquered finish.
We recommend getting perfectly warmed up with the essential DISCØ set of 1 eraser, 5 magnets and 1 black marker pen.
Both are also available for purchase individually, and the magnets in sets of 10 pieces.

DISCØ

STORAGE UNIT

CHAT BOARD® STORAGE UNIT in a timeless and sleek design by ARDE design studio, is a functional two-compartment storage unit for all of your CHAT BOARD® accessories. Available in 2 different versions, one to perfectly complement any of our boards, it offers the perfect solution for organising and keeping track of pens, erasers and extra magnets.
CHAT BOARD® STORAGE UNIT is made of injection moulded ABS and powder coated steel, making it durable as well as functional.

It is available in 2 different versions, and in a choice of 2 versatile colours: Signal White (RAL 9003) and Jet Black (RAL 9005).

ESSENTIAL ACCESSORIES

We offer a broad selection of sleek and functional accessories, designed to be used across the entire CHAT BOARD® collection while providing the best possible user-experience and making the most of each of our products.

All of our pens have been specially developed for use on glass, ensuring that writing and illustrations are clearly visible on the smooth surface. Regardless of whether you opt for the dry erase markers, which work best on boards in lighter colours, or our neon pens, which stand out against even the darkest background.

The CHAT BOARD® magnets are extra strong and specially developed to adhere through glass, while still being able to hold up to 15 sheets of A4 paper.

NB We recommend that you always use CHAT BOARD® pens and magnets with our products.

Make the most of your CHAT BOARD® product with one of our Starter Sets, each providing everything needed to get off to the best possible start. With a wide selection of accessories, you can combine markers, magnets and erasers to create the perfect match.

There are two types of Pen Trays in the CHAT BOARD® accessories collection; the acrylic pen trays are available in both clear and white opaque and come in two different sizes, while the powder-coated aluminium pen trays are available in a further 7 sizes, each matching a standard CHAT BOARD® width. Aluminium Pen Trays are constructed with a bend along the length of the tray and are easily mounted onto the lower edge of the steel frame on the back of the board.

USEFUL INFORMATION

CHAT BOARD® | 2026

MAINTENANCE & CERTIFICATIONS

Maintenance

Your CHAT BOARD product requires minimal daily maintenance and by following these simple guidelines, it will look beautiful for years to come:

Glass

As a rule, we recommend cleaning the board using a CHAT BOARD Eraser or a soft cloth, depending on how much writing/illustration needs to be removed. Next, polish the glass with the CHAT BOARD Cleaner, a window cleaning spray or regular rubbing alcohol.

NB

Never spray Cleaner directly on the writing/illustration as this will prolong the cleaning process, and make sure you always use a soft material such as paper towel - or our favourite: a microfibre cloth.
In case someone has accidentally used permanent marker on the glass, this can be removed with rubbing alcohol, after which the board will be ready to use as normal.

Kvadrat fabrics
Vacuum regularly. Professional dry cleaning on-site.

BuzziFelt

Vacuum clean regularly. Do not wash. Do not remove the BuzziFelt from the product. Treat spillages immediately. Professional dry clean or wipe clean with a pH neutral soap and a damp cloth.

GENERAL TERMS

Warranty
CB provides a five-year warranty on standard products against defects in materials and workmanship. The warranty does not extend to ordinary wear and tear.

Tolerances & variations in colour or nuance
Please note that minor scratches found on the back or front of the products are not considered as defects. Likewise, small and insignificant air bubbles or production related discrepancies in colour or nuance in the glass of different items are not considered as defects. Please note that such occurrences are due to normal manufacturing circumstances.

BUZZIFELT panels are handcrafted and hand-cut. Due to the manufacturing process, dimensional tolerances of approximately ±1–2 mm may occur. Minor variations visible when mounting panels side by side are considered normal and are not regarded as a manufacturing defect.
